

Acoustic Tiles are one of most easily adaptable, customizable and scalable solutions . From simple geometric shapes and carved patterns to highly functional layered and 3D engineered designs, we have your walls, custom projects and specifications professionally covered!

## ZenTile SHADE

Creative & Custom Shapes, Sizes and Patterns. Carved vee cuts provide texture, depth and a unique shadowline effect with both natural and downlighting with our 12mm ZenPanel.

## ZenTile MONO

Unlimited options for combining Size, Shape and any of our 44 Colors of 12mm ZenPanel. Straight cuts & square edge or radius corners & fluid lines, let's upgrade your elevations!

## ZenTile DUO

Unlimited options of Size, Shape, Texture & Colors when layering 12mm ZenPanel. Find your favorite from our vast portfolio or get creative with your own design.

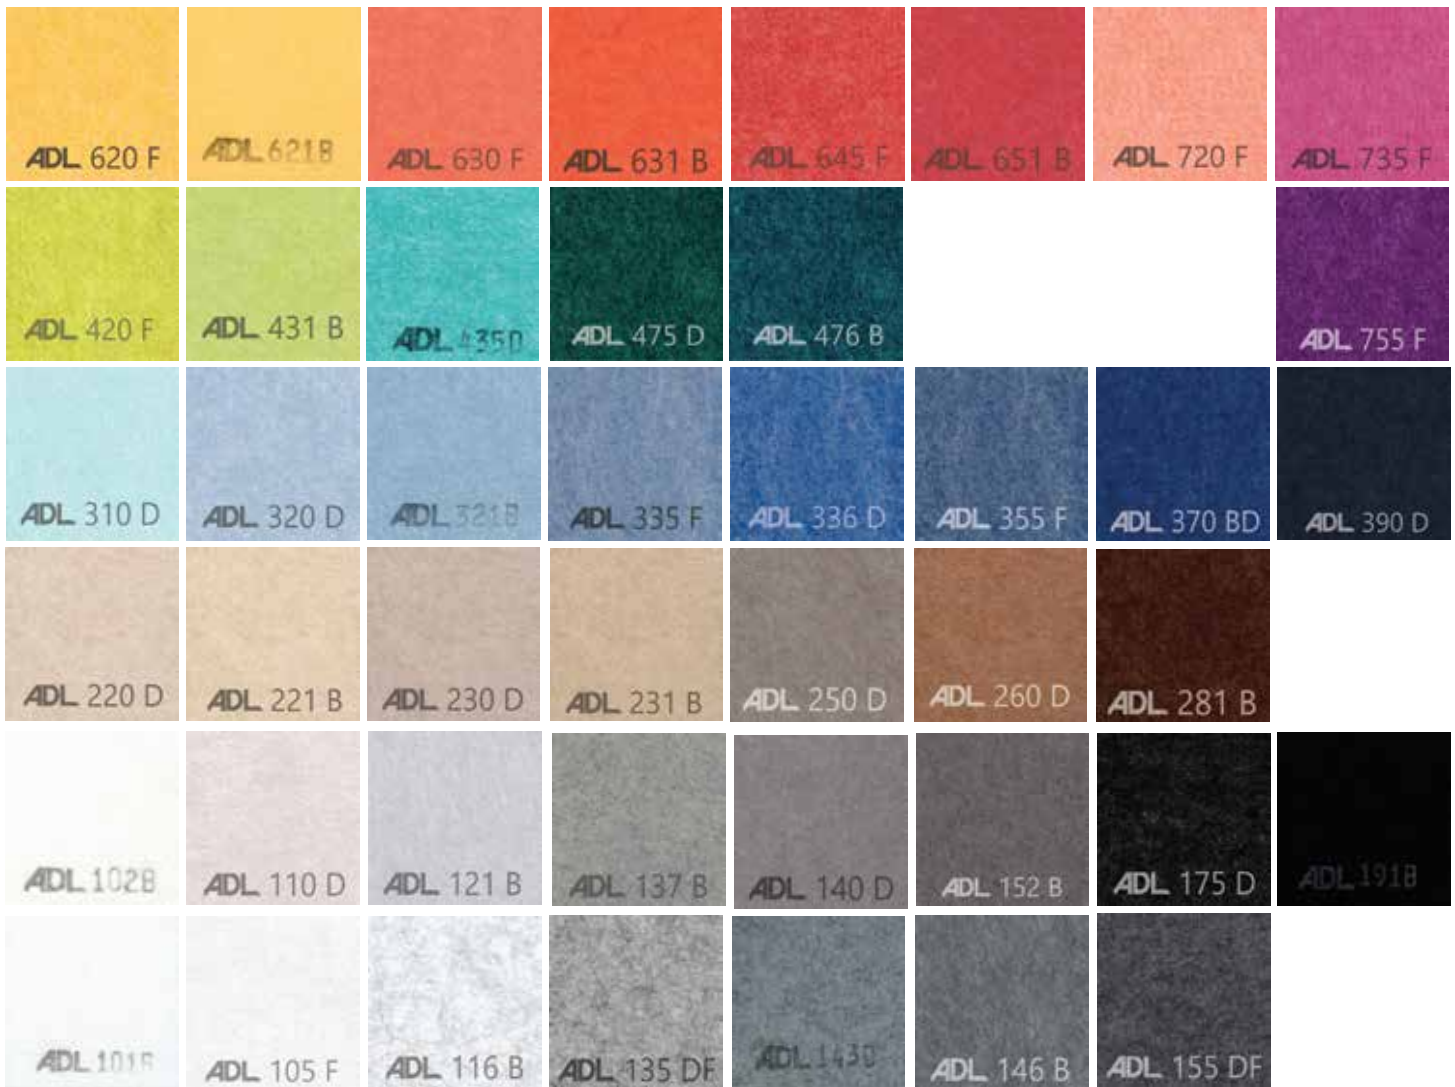

## ZenTile 3D

Create iconic dimensional wall with a huge offering of geometries and depth. Make a statement with our highest performing 3D Acoustic Elements.

## 12mm ZenPanel

- Best Selling Neutrals = Higher Inventory
- Low Selling Warms and Vibrants = Lower
- Lead Times vary by color, product, order size & inventory level
- Custom Colors Available with MOQ of 2,000 SF & 12 week lead time from PO, Payment and Color Swatch Approval
- Always Request a Sample – colors in this chart, website and your screen are not always representative of actual hue
- Color can vary greatly with light source, warmth, direction and orientation of material
- Some Color Swatches adjusted for contrast & scaled representation
- Most Sheet Sizes are Nominal 4'x9'
- 8 in upper right swatch indicates 96" max length
- B suffix indicates Class A FR
- D suffix with 8 = Class B FR
- F suffix indicates = Class C FR

ZenTile SHADE Series is a carved design that provides a shadowline effect to your wall. It is a highly customizable & flexible acoustic tile product designed for endless variety of layouts, scales & textures. The chamfered edge provides an easy install with abutted edges and hidden seams.
